

Foothill/Eastern Transportation Corridor Agency
Toll Road Refunding Revenue
Bonds Series 2013 and 2015

Continuing Disclosure Report
For the Fiscal Year Ended June 30, 2018

Prepared pursuant to the Continuing Disclosure Certificates

**Foothill/Eastern Transportation Corridor Agency Toll
Road Refunding Revenue Bonds
Series 2013 and 2015**

**CONTINUING DISCLOSURE REPORT
For the Fiscal Year Ended June 30, 2018**

Introduction:

On January 2, 2014, the Agency issued \$2,274,616,568 aggregate initial principal amount of Toll Road Refunding Revenue Bonds, Series 2013 (the "2013 Bonds"). The 2013 Bonds were issued pursuant to a Master Indenture of Trust, dated as of December 1, 2013, between the Agency and the Trustee, as supplemented by the First and Second Supplemental Indentures of Trust, dated as of December 1, 2013, between the Agency and the Trustee (such Master Indenture of Trust, as so supplemented, the "2013 Master Indenture").

The 2013 Bonds were issued by the Agency for the purpose of providing funds, to refund the 1999 Bonds, as more fully described in the Official Statement for the 2013 Bonds dated December 12, 2013 (the "2013 Official Statement").

On February 19, 2015, the Agency issued \$87,007,699 aggregate initial principal amount of Toll Road Refunding Revenue Bonds, Series 2015 (the "2015 Bonds"). The 2015 Bonds were issued pursuant to the 2013 Master Indenture, as supplemented by the Third Supplemental Indenture of Trust, dated as of January 1, 2015, between the Agency and the Trustee.

The 2015 Bonds were issued by the Agency for the purpose of providing funds to refund the 1995 Bonds, as more fully described in the Official Statement for the 2015 Bond's dated February 3, 2015 (the "2015 Official Statement").

The Term Rate Bonds (Subseries B-1) were remarketed as required by the 2013 Bonds Indenture. The transaction was completed on August 24, 2017 which locked in lower interest rates on \$125,000,000 of Agency debt through 2053. The interest savings are approximately \$1.3 million each year (prorated at \$1.1 million for FY18).

Pursuant to Rule 15c2-12(b)(5) of the Securities and Exchange Commission, the Agency has executed Continuing Disclosure Certificates, dated as of January 2, 2014 and February 19, 2015 for the 2013 and 2015 Bonds, respectively (the "Continuing Disclosure Certificates"). The Continuing Disclosure Certificates state that the Agency shall provide not later than January 15 of each year to each Repository (as defined in the Continuing Disclosure Certificate) a Disclosure Report relating to the immediately preceding fiscal year. The Disclosure Report is to contain certain data related to the Agency, the Toll Road, the 2013 Bonds and the 2015 Bonds.

The information contained in this report constitutes all disclosure required pursuant to the Continuing Disclosure Certificates. Capitalized terms used herein and not otherwise defined shall have the meanings assigned to such terms in the Official Statement.

Disclosure Information:

Section 4.1 - The audited financial statements of the Agency for the prior Fiscal Year, prepared in accordance with generally accepted accounting principles as promulgated to apply to governmental entities from time to time by the Governmental Accounting Standards Board.

See audited financial statements for the fiscal year ended June 30, 2018 attached.

Section 4.2 - Principal amount of Bonds of each Series outstanding under the 2013 and 2015 Master Indentures.

On January 2, 2014, the Agency issued \$2,274,616,568 aggregate initial principal amount of the 2013 Bonds and used the proceeds to refund the 1999 Bonds. As of June 30, 2018, the bonds consist of the following: \$1,374,440,000 principal amount of Series 2013A Current Interest Bonds; \$256,541,131 Series 2013A Convertible Capital Appreciation Bonds; \$171,151,000 Series 2013A Capital Appreciation Bonds; \$375,000,000 Series 2013B Term Rate Current Interest Bonds; and \$198,050,000 Series 2013C Junior Lien Current Interest Bonds.

On February 19, 2015, the Agency issued \$87,007,699 aggregate initial principal amount of Capital Appreciation Bonds Series 2015A and used the proceeds to refund the 1995 Bonds. As of June 30, 2018, the accreted value of the 2015 Bonds is \$100,360,407.

Additional information can be found in the Agency's audited financial statements.

Section 4.3 - A statement of the Senior Lien Bonds Reserve Fund Requirement, the balance in the Senior Lien Bonds Reserve Fund and the amount of the Senior Lien Bonds Reserve Fund Requirement (if any) that is funded with a letter of credit, surety bond, or insurance policy, as provided by the 2013 Master Indenture; and a statement of the Junior Lien Bonds Reserve Fund Requirement, the balance in the Junior Lien Bonds Reserve Fund and the amount of the Junior Lien Bonds Reserve Fund Requirement (if any) that is funded with a letter of credit, surety bond, or insurance policy, as provided by the 2013 Master Indenture.

The Senior Lien Bonds Reserve Fund Requirement is \$200,957,376.

The total amount available to meet the Senior Lien Bonds Reserve Fund Requirement on June 30, 2018 was \$202,548,060 in cash and investments.

The Junior Lien Bonds Reserve Fund Requirement is \$19,805,000.

The total amount available to meet the Junior Lien Bonds Reserve Fund Requirement on June 30, 2018 was \$19,931,785 in cash and investments.

Section 4.4 – A statement of the Use and Occupancy Fund Requirement under the 2013 Master Indentures, the balance of the Use and Occupancy Fund, the amount of the Use and Occupancy Fund Requirement (if any) that is funded with an insurance policy as provided by the 2013 Master Indenture, and, if applicable, a brief description of such insurance policy (including self-insurance retention requirement applicable to such insurance policy)

The Use and Occupancy Fund Requirement under the 2013 Indentures is \$15,000,000 of which at least \$10,000,000 must be held in cash and investments. As of June 30, 2018, the fund consisted of \$15,079,199 in cash and investments. As the cash and investments held in the Use and Occupancy Fund satisfy the full requirement, no insurance policy is held for this purpose.

Section 4.5 - Statement of the balance in the Revenue Guarantee Fund.

The Revenue Guarantee Fund was structured to cover a portion of the debt service payments in fiscal years 2016-2018, only in the event that revenues are insufficient. No Revenue Guarantee funds have been needed for debt service payments through June 30, 2018. As of June 30, 2018, the balance in the Revenue Guarantee Fund was \$2,289,921.

Section 4.6 – Updated Fiscal Year information for the table entitled "HISTORICAL FISCAL YEAR TRAFFIC AND GROSS TRANSACTIONAL TOLL REVENUES" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM- Toll Transactions, Gross Transactional Toll Revenues and Net Collectible Tolls."

Fiscal Year ending June 30	2014	2015	2016	2017	2018
Annual Transactions	56,637,630	58,416,094	63,375,504	67,004,684	69,049,893
Growth Over Previous Year	2.3%	3.1%	8.5%	5.7%	3.1%
Average Weekday Transactions	176,647	182,795	197,704	209,478	215,943
Growth Over Previous Year	2.4%	3.5%	8.2%	6.0%	3.1%
Average Toll Rate	\$ 2.11	\$ 2.16	\$ 2.24	\$ 2.29	\$ 2.35
Growth Over Previous Year	4.5%	2.7%	3.4%	2.4%	2.4%
Annual Gross Transactional Toll Revenues	\$119,410,783	\$126,468,565	\$141,886,265	\$ 153,610,200	\$ 162,046,077
Growth Over Previous Year	6.9%	5.9%	12.2%	8.3%	5.5%

Section 4.7 – Updated Fiscal Year information for the table entitled "HISTORICAL FISCAL YEAR GROSS TRANSACTIONAL TOLL REVENUES AND NET COLLECTIBLE TOLLS" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM-Net Collectible Tolls."

Fiscal Year ending June 30	2014	2015	2016	2017	2018
Gross Transactional Toll Revenue ¹	\$ 119,410,783	\$ 126,468,565	\$ 141,886,265	\$ 153,610,200	\$ 162,046,077
Less Non-Pursuable Transactions ²	\$ (1,973,834)	\$ (2,541,216)	\$ (3,444,598)	\$ (6,130,313)	\$ (6,320,735)
Less Processable Transactions	\$ (2,483,038)	\$ (6,502,231)	\$ (8,632,158)	\$ (8,747,816)	\$ (7,746,932)
Toll Revenue from Violations ³	\$ -	\$ 4,813,612	\$ 6,151,262	\$ 6,258,052	\$ 6,259,168
Less Non-Revenue Transactions ⁴	\$ (643,341)	\$ (49,352)	\$ (234,544)	\$ (200,676)	\$ (411,802)
Loss due to Canyon Fire 2 ¹	\$ -	\$ -	\$ -	\$ -	\$ (276,496)
Net Collectible Tolls	\$ 114,310,570	\$ 122,189,379	\$ 135,726,226	\$ 144,789,447	\$ 153,549,280
% of Gross Transactional Toll Revenue	95.7%	96.6%	95.7%	94.3%	94.8%

1. The FY18 Gross Transactional Toll Revenue includes the estimated lost revenue due to Canyon Fire 2 of \$1.4 million. The FY18 loss due to Canyon Fire 2 represents the portion of the estimated lost revenue that was not recovered through insurance.

2. Non-Pursuable transactions (primarily vehicles without license plates) have increased as the economy has improved and traffic on the state highway system has increased. A reduction is expected beginning in calendar year 2019 as all new vehicles will be required by law to have temporary license plates.

3. As a result of the conversion to All Electronic Tolling (AET) and the resulting shift in payment patterns, including some patrons who may have previously paid with cash but are now initially identified instead as pursuable violations transactions, included in Net Collectible Toll Revenues are tolls identified during the violation process that were appropriately reclassified to Net Collectible Toll Revenues. Tolls collected during the violation process were not considered material prior to the implementation of AET and the policy for waving penalties for first time violators if toll paid within 30 days, and as such were included in Violation Penalty Revenue through FY14.

4. Transactions resulting from various entities that are not obligated to pay toll revenues (i.e. police), as well as U.S. GAAP accounting adjustments.

Section 4.8 – A Statement of Violation Penalty Revenues accrued for the Fiscal Year.

Violation Penalty Revenue accrued for the fiscal year ended June 30, 2018 was \$23,642,883. Violation Penalty Revenue is recognized when earned. As mentioned in Section 4.7 above, for the fiscal year ended June 30, 2018 Toll Revenue from Violations was \$6,259,158 and is properly classified in Net Collectible Toll Revenues.

Section 4.9 – A statement of Account Maintenance Fees accrued for the Fiscal Year, as well as the number of accounts and transponders for such Fiscal Year.

Account Maintenance Fees accrued for the fiscal year ended June 30, 2018 was \$8,956,049. The total number of FasTrak accounts for both Agencies was 660,545 and the total number of transponders was 1,490,085 at June 30, 2018. Account Maintenance Fees are allocated based on costs to support customers and the revenue base.

Section 4.10 – Statistical data summarizing the use of the AVI collection system on the Foothill/Eastern System, including the percentage of toll transactions that are AVI transactions and the overall level of accuracy of the toll collection system.

Fiscal Year ending June 30	2014	2015	2016	2017	2018
AVI Transactions	47,832,597	54,104,224	57,652,230	61,694,831	64,110,004
Total Transactions	56,637,630	58,416,094	63,375,504	67,004,684	69,049,893
AVI %	84.5%	92.6%	91.0%	92.1%	92.8%

In May 2014, the Transportation Corridor Agencies replaced its integrated toll collection and revenue management systems ("TCARMS") with the Infinity Digital Lane System ("Infinity System"). Using common transponders,

license plate readers, a centralized computer system and common personnel, the Infinity System utilizes mechanisms for separate usage-based revenue collection and cost allocation among the Agency and the San Joaquin Hills Transportation Corridor Agency. The Infinity System was designed by and is operated and maintained by TransCore, a Tennessee-based corporation.

By contract, the Infinity System is required to achieve an accuracy level of at minimum 99.5% readable plates. Final system acceptance was completed in April 2015. The Infinity System has met the minimum requirements.

Section 4.11- A statement of Development Impact Fees accrued for the Fiscal Year.

Development Impact Fees accrued for the fiscal year ended June 30, 2018 was \$24,754,012.

Section 4.12- Updated Fiscal Year information for the table entitled "Current Expenses" in the section of the Official Statement entitled "THE FOOTHILL/ EASTERN SYSTEM- Current Expenses."

Fiscal Year Ending June 30	2014	2015	2016	2017	2018	2019 (Budgeted)
Toll Operations						
Toll Collections	\$ 2,162	\$ -	\$ -	\$ -	\$ -	\$ -
Toll Systems	\$ 3,157	\$ 1,565	\$ 2,230	\$ 1,711	\$ 1,768	\$ 2,022
Toll Customer Service/Compliance	\$ 8,531	\$ 11,673	\$ 12,085	\$ 9,246	\$ 9,479	\$ 11,913
Toll Facilities	\$ 849	\$ 739	\$ 662	\$ 637	\$ 669	\$ 745
Total Toll Operations	\$ 14,699	\$ 13,977	\$ 14,977	\$ 11,594	\$ 11,916	\$ 14,680
Toll Operating Administration	\$ 6,674	\$ 6,106	\$ 6,871	\$ 7,420	\$ 6,464	\$ 8,765
Toll Equipment and Capital Expenditures						
(Includes Transponders)	\$ 1,938	\$ 2,263	\$ 2,367	\$ 1,855	\$ 2,338	\$ 3,939
Total Current Expenses*	\$ 23,311	\$ 22,346	\$ 24,215	\$ 20,869	\$ 20,718	\$ 27,384

*FY15 - Toll Systems was lower as final AET on-road system acceptance did not occur until late in the fiscal year.

FY16 - Reflects variable costs associated with increasing transactions.

FY17 - The conversion to All Electronic Tolling (AET) changed the business model from using on-road infrastructure (cash toll collections) to a centralized back office focus, weighted toward costs to support customers and the revenue base. Given the significant San Joaquin Hills Transportation Corridor Agency (SJHTCA) tolls, penalties, and fees revenue growth and a change in the business model, a shift in allocations to SJHTCA occurred in FY17. As such, FY17 for SJHTCA and Foothill/Eastern Transportation Corridor Agency (F/ETCA) includes a shift in allocations for account maintenance fee revenue and toll operations and administration expenditures to SJHTCA.

FY18 - Capital Expenditures increased due to one-time costs to develop a new customer service center back office system.

FY19 - The overall increase in expenses over FY18 is primarily due to one-time costs to develop a new customer service center back office system, and the 6C sticker tag tolling technology implementation and account simplification project.

Section 4.13 - Updated Fiscal Year information for the table entitled "HISTORICAL OPERATING REVENUES AND DEBT SERVICE COVERAGE" in the section of the Official Statement entitled "THE FOOTHILL/EASTERN SYSTEM-Historical Operating Revenues and Debt Service Coverage."

Fiscal Year ending June 30	2014	2015	2016	2017	2018

* As per indenture, equals DIF Revenue in excess of \$5 Million.

**As per the 2013 Indenture, this applies for 2014 only as the bonds were refinanced with 7 months left in the fiscal year.

*** As of June 30. Not pledged to the payment of the Bonds.

Section 4.14 - Updated Fiscal Year information for the table entitled "Current Expenses for Toll Operations" in the section of the Official Statement entitled "THE FOOTHILL/ EASTERN SYSTEM- FY 2013-14 Results and FY 2014-15 Budget-Management Discussion of FY 2013-14 and FY 2014-15 Budget and Performance-Current Expenses for Toll Operations."

See table in Section 4.12

Section 4.15 - Updated Fiscal Year information for the table entitled "Future Capital Project Costs" in the section of the Official Statement entitled "THE FOOTHILL/ EASTERN SYSTEM-Capital Improvement Program-Other Capital Projects.

See attached "Fiscal Year 2019 Capital Improvement Plan" presented to the Board of Directors on June 14, 2018.

Section 4.16 - Updated actual Fiscal Year information corresponding to the projections in the table in the section entitled "PROJECTED REVENUES AND REVENUE REQUIREMENTS. "

See table in Section 4.13

Section 4.17 – A description of any damage to the Foothill/Eastern System or the toll collection system during the past Fiscal Year, which in the determination of the Agency will result in a material reduction in Net Toll Revenues.

During the fiscal year ended June 30, 2018, no damage occurred to the Toll Road or the toll collection system, which, in the determination of the Agency, resulted in a material reduction in Net Toll Revenues.

Section 5 – Reporting of Significant Events

The Term Rate Bonds (Subseries B-1) Remarketing took place in early FY 2018 as discussed in the introduction. There was also a rating change for the Senior and Junior Lien Bonds from Moody's on July 31, 2017 which upgraded the bonds from Ba1 to Baa3.

As of June 30, 2018, none of the following events have occurred with respect to the 2013 and 2015 Bonds except as noted above:

1. Principal and interest payment delinquencies;
2. Non-payment related defaults, if material;
3. Unscheduled draws on debt service reserves reflecting financial difficulties;
4. Unscheduled draws on credit enhancements reflecting financial difficulties;
Substitution of credit or liquidity providers, or their failure to perform; Adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the 2013 and 2015 Bonds, or other material events affecting the tax status of the Series 2013 and 2015 Bonds;
5. Modifications to rights of 2013 and 2015 Bond holders, if material;
6. 2013 and 2015 Bond calls, if material, and tender offers; Defeasances; Release, substitution or sale of property securing repayment of the 2013 and 2015 Bonds, if material; Rating changes; Bankruptcy, insolvency, receivership, or similar event of the Agency. For purposes of this event the event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the Agency in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Agency, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the obligated person;

See Term Rate Bonds (Subseries B-1) Remarketing and Credit Rating upgrades in Section 5 above.

7. Consummation of a merger, consolidation, or acquisition involving the Agency or the sale of all or substantially all of the assets of the Agency (other than in the ordinary course of business), the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;
8. Appointment of a successor or additional Trustee, or the change of name of a Trustee, if material; and
9. Introduction or passage of any amendment to the Act.

Signature

Independent Auditors' Report

The Honorable Board of Directors
Foothill/Eastern Transportation Corridor Agency:

We have audited the accompanying financial statements of the Foothill/Eastern Transportation Corridor Agency (the Agency) as of and for the years ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements for the years then ended, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foothill/Eastern Transportation Corridor Agency as of June 30, 2018 and 2017, and the changes in its financial position and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that management's discussion and analysis and required supplementary information on pages 3–7 and pages 39–40, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management's Discussion and Analysis

June 30, 2018 and 2017

(In thousands)

This discussion and analysis of the financial performance of the Foothill/Eastern Transportation Corridor Agency (the Agency) provide an overview of the Agency's financial activities for the fiscal years ended June 30, 2018 and 2017. Please read it in conjunction with the Agency's financial statements and accompanying notes.

Background

The Agency was formed in 1986 as a joint powers authority by the County of Orange and cities in Orange County, California to provide traffic relief to Orange County through the construction and operation of toll roads. The Agency was created to plan, design, finance, construct, and operate the Foothill (State Route 241) and Eastern (State Route 241, State Route 261, and State Route 133) toll roads. The Agency's primary focus is the operation of the facilities and collection of tolls to repay the tax-exempt revenue bonds that were issued to construct the toll roads.

Planning began in the 1970s when local transportation studies identified the need for new highways, including the Foothill and Eastern Transportation Corridors (State Route 241, State Route 261, and State Route 133), to serve Orange County's growing population. In the early 1980s, the corridor was envisioned as a free highway funded through state or federal gas-tax revenue, but with a shortage of gas-tax revenue to fund transportation improvements and increasing costs of building new roads, local officials began to study alternative ways to fund road projects.

In the mid-1980s, two state laws were passed authorizing the Agency to collect tolls and development impact fees to fund road construction. With a pledged revenue stream from future tolls and development impact fees, the Agency issued nonrecourse, toll-revenue bonds to fund road construction, rather than relying on the uncertainty of state gas-tax revenue. The Agency also reached an agreement with the California Department of Transportation (Caltrans) to assume ownership, liability, and maintenance of the State Route 241, State Route 261, and State Route 133 toll roads as part of the state highway system. This agreement eliminated the need for the Agency to seek additional funding sources for road maintenance.

In 1993, the first 3.2-mile segment of the Foothill (State Route 241) toll road opened to traffic, the first toll road in Southern California to use FasTrak®, an electronic toll collection system that allowed drivers to pay tolls without stopping at a toll booth. The State Route 241, State Route 261, and State Route 133 toll roads serve as important, time-saving alternative routes to local freeways and arterial roads, with 69,049,893 transactions during the year ended June 30, 2018, compared to 67,004,684 annual transactions in 2017, and 63,375,504 transactions in 2016.

Financial Highlights

Tolls, fees, and fines earned in fiscal year 2018 (FY18) totaled \$188,805 compared to \$175,047 in fiscal year 2017 (FY17), an increase of 7.9%.

As of June 30, 2018 and 2017, the Agency had \$356,374 and \$382,819, respectively, of restricted cash and investments that were subject to master indentures of trust for the bonds outstanding at each date. The Agency also had \$339,431 and \$269,715, respectively, of unrestricted cash and investments.

The Agency's net position at June 30, 2018 and 2017 was \$(1,579,796) and \$(1,624,453), respectively. The negative net position results primarily from the inclusion in the Agency's financial statements of its long-term

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Management's Discussion and Analysis

June 30, 2018 and 2017

(In thousands)

debt obligations, which were used to fund construction of the corridors, but not the related capital assets, since ownership of the corridors was transferred to Caltrans upon completion of construction.

Overview of the Financial Statements

The Agency's financial statements include its statements of net position, statements of revenue, expenses, and changes in net position, statements of cash flows, and notes to the financial statements. The financial statements present the financial picture of the Agency from the economic resources measurement focus using the accrual basis of accounting. These statements include the assets and liabilities of the Agency as well as certain items labeled as deferred outflows and inflows of resources. The current year's revenue and expenses are taken into account regardless of when cash is received or paid. The statements of cash flows provide information about the Agency's cash receipts, cash payments, and net changes in cash resulting from operating, capital and related financing, and investing activities during the reporting period.

The statements of net position and the statements of revenue, expenses, and changes in net position report the Agency's net position and related changes. Net position is the difference between the total of recorded assets and deferred outflows and the total of liabilities and deferred inflows. The recorded activities include all toll revenue and operating expenses related to the operation of the Foothill/Eastern Transportation Corridors, as well as the Agency's construction-related activities and related financing costs. Activities are financed by toll revenue, development impact fees, fees and fines, and investment income.

Financial Analysis

The following table summarizes the net position of the Agency as of June 30, 2018, 2017, and 2016:

	<u>2018</u>	<u>Percentage increase (decrease)</u>	<u>2017</u>	<u>Percentage increase (decrease)</u>	<u>2016</u>
Assets and deferred outflows:					
Current assets	\$ 346,120	5.3 %	\$ 328,543	33.7 %	\$ 245,789
Capital assets, net	106,030	23.3	86,000	(70.6)	292,397
Other noncurrent assets	492,195	6.0	464,503	(6.9)	498,766
Deferred outflows	<u>10,787</u>	(5.3)	<u>11,387</u>	(11.3)	<u>12,843</u>
Total assets and deferred outflows	<u>955,132</u>	7.3	<u>890,433</u>	(15.2)	<u>1,049,795</u>
Liabilities and deferred inflows:					
Bonds payable	2,436,570	1.2	2,407,087	1.2	2,379,275
Net pension liability	7,417	(15.2)	8,742	(2.0)	8,918
Other liabilities	88,850	(9.7)	98,402	11.3	88,409
Deferred inflows	<u>2,091</u>	219.2	<u>655</u>	(20.5)	<u>824</u>
Total liabilities and deferred inflows	<u>2,534,928</u>	0.8	<u>2,514,886</u>	1.5	<u>2,477,426</u>

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Management's Discussion and Analysis

June 30, 2018 and 2017

(In thousands)

The increases in current assets above are primarily attributable to the Agency's accumulation of additional cash reserves, as cash generated from operations has continued to surpass its immediate debt service requirements.

The following is a summary of the Agency's revenue, expenses, and changes in net position for the years ended June 30, 2018, 2017, and 2016:

	2018	Percentage increase (decrease)	2017	Percentage increase (decrease)	2016
Operating revenue:					
Tolls, fees, and fines	\$ 188,805	7.9 %	\$ 175,047	4.4 %	\$ 167,635
Development impact fees	24,754	18.2	20,939	(26.1)	28,349
Other revenue	902	42.9	631	18.4	533
Total operating revenue	214,461	9.1	196,617	0.1	196,517
Operating expenses	29,889	4.5	28,601	5.5	27,105
Operating income	184,572	9.9	168,016	(0.8)	169,412
Nonoperating expenses, net	(139,915)	(61.7)	(364,838)	158.8	(140,953)
Change in net position	44,657		(196,822)		28,459
Net position at beginning of year	(1,624,453)	13.8	(1,427,631)	(2.0)	(1,456,090)
Net position at end of year	\$ (1,579,796)	(2.7)	\$ (1,624,453)	13.8	\$ (1,427,631)

Tolls, fees, and fines comprised 88.0% of total revenue in FY18 compared to 89.0% of total revenue in FY17. Tolls, fees, and fines increased by 7.9% and 4.4%, respectively, over each of the two preceding years, primarily due to increases in toll transactions and inflationary toll rate increases. Development impact fees were \$24,754 in FY18 and \$20,939 in FY17, an increase of 18.2%, compared to a decrease of 26.1% in FY17. The amounts of development impact fees collected fluctuate from year to year depending on residential and nonresidential development in Orange County within the area of benefit.

Operating expenses were \$29,889 in FY18 compared to \$28,601 in FY17, an increase of 4.5%. Included in operating expenses in FY18 is noncash depreciation expense on fixed assets of \$5,563, compared to \$5,884 in FY17. Excluding depreciation, operating expenses were \$24,326 in FY18 and \$22,717 in FY17, an increase of \$1,609.

Net nonoperating expenses for FY18 include investment income of \$5,567; interest expense of \$142,245; bond remarketing costs of \$882; and \$2,355 of costs related to the removal of some of the agency's toll booths. For FY17, net nonoperating expenses include investment income of \$2,855; interest expense of \$141,939; and \$7.1 million for a legal settlement and \$218,571 for the write-off of construction in progress, as described further below. Accrual-basis interest expense included accretion on the Agency's capital appreciation bonds and convertible capital appreciation bonds of \$28,974 and \$27,336 in FY18 and in FY17, respectively. Interest

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Management's Discussion and Analysis

June 30, 2018 and 2017

(In thousands)

expense in FY18 and FY17 also included noncash amortization of \$509 and \$476, respectively, related to a discount on the issuance of bonds; related to prepaid bond insurance of \$257 and \$219, respectively; and of \$850 and \$1,163, respectively, related to the deferred bond refunding costs.

During the year ended June 30, 2017, the Agency agreed to settle several legal matters related to its planned route for extension of State Route 241 to connect with I-5. As a condition of the settlement, the Agency agreed to abandon consideration of this route and to pay \$7.1 million to reimburse certain litigation costs incurred by the plaintiffs. Accordingly, the Agency recognized expense of \$218,571 to write off previously incurred costs associated with planning for this route.

Capital Assets, Net

The following table summarizes the Agency's capital assets, net of accumulated depreciation, at June 30:

	<u>2018</u>	<u>2017</u>
Construction in progress	\$ 72,633	52,988
Right-of-way acquisitions, grading, or improvements	18,698	15,014
Furniture and equipment	<u>14,699</u>	<u>17,998</u>
Total capital assets, net	<u>\$ 106,030</u>	<u>86,000</u>

Right-of-way acquisitions, grading, or improvements include easements and environmental mitigation parcels. Furniture and equipment includes facility and toll revenue equipment related to the corridor operations facility, transponders, toll and violations collection equipment, buildings, and changeable message signs.

More detailed information about the Agency's capital assets is presented in note 5 to the financial statements.

Debt Administration

At June 30, 2018, 2017, and 2016, the Agency had outstanding bonds payable of \$2,436,570, \$2,407,087, and \$2,379,275, respectively. The changes in FY18 and FY17 are primarily attributable to the accretion of principal on capital appreciation bonds of \$28,974 and \$27,336, respectively.

All of the Agency's toll, fees, fines, and development impact fee revenue, less certain expenses, as defined in the indentures of trust, is pledged to repay these bonds. The Agency has several debt covenants contained in the master indentures of trust. Management of the Agency represents that the Agency was in compliance with all of its covenants as of and for the years ended June 30, 2018 and 2017.

Economic Factors

After consideration of toll rate recommendations from the Agency's traffic consultant and the potential effects of traffic diversion, toll rates were approved by the Agency's board of directors for implementation effective July 1, 2018. The new toll rates are projected to result in a 3.7% increase in transactional toll revenue and reflect increases of \$0.15 to \$0.20 for peak hour toll rates at the mainline plazas.

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(1) Reporting Entity

In recognition of the regional transportation needs in the County of Orange (County), the California State Legislature enacted various amendments to the California Government Code to authorize the financing of bridges and major thoroughfares by joint powers agencies. Pursuant to such authorization, the Foothill/Eastern Transportation Corridor Agency (the Agency) was created in January 1986 by a joint exercise of powers agreement. Current members are the County and the cities of Anaheim, Dana Point, Irvine, Lake Forest, Mission Viejo, Orange, Rancho Santa Margarita, San Clemente, San Juan Capistrano, Santa Ana, Tustin, and Yorba Linda (collectively, the member agencies). The purpose of the Agency is to plan, design, construct, finance, administer funds for, and operate the Foothill and Eastern Transportation Corridors. The Agency is governed by a board of directors comprising representatives from the member agencies. The Agency has the power to, among other things, incur debt and establish and collect tolls.

The financial statements comprise the activities of the Agency. There are no other organizations for which the Agency is financially accountable or for which it is fiscally responsible. The Agency and the San Joaquin Hills Transportation Corridor Agency (SJHTCA) are under common management and together are called the Transportation Corridor Agencies. However, each agency has an independent governing board.

(2) Summary of Significant Accounting Policies

The accounting policies of the Agency are in conformity with U.S. generally accepted accounting principles (U.S. GAAP) applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

(a) Basis of Presentation

The Agency records revenue in part from fees and other charges for services to external users and, accordingly, has chosen to present its financial statements using the reporting model for special-purpose governments engaged in business-type activities. This model allows all financial information for the Agency to be reported in a single column in each of the accompanying financial statements.

The Agency distinguishes operating revenue and expenses from nonoperating items in the preparation of its financial statements. Operating revenue and expenses generally result from the collection of tolls, fees, and fines on the corridors. The Agency's operating expenses include depreciation, materials, services, and other expenses related to the operation of the corridors, in addition to costs associated with the Agency's ongoing obligations for environmental mitigation and certain costs related to construction administration. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

(b) Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. Revenue is recognized when earned, and expenses are recognized when incurred.

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

Restricted resources are used in accordance with the Agency's master indentures of trust. Unrestricted resources are used at the Agency's discretion. When both restricted and unrestricted resources are available for use, it is the Agency's policy to determine on a case-by-case basis when to use restricted or unrestricted resources.

(c) Budget

Fiscal year budgets are prepared by the Agency's staff for estimated revenue and expenses. The board of directors adopts the annual budget at the June board meeting for the fiscal year commencing the following July. The approval of the budget requires the consent of at least two-thirds of the board members. No expenditures in excess of the total budget for each board-designated category are made without the approval of at least two-thirds of the board members, at which time a revised and amended budget is required to be submitted to the board of directors. All budgets are adopted on a basis consistent with U.S. GAAP. All budget appropriations lapse at year-end. Any budgeted expenses not incurred by each year-end must be reappropriated in the next fiscal year.

(d) Cash and Cash Equivalents

Cash and cash equivalents generally consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

(e) Investments

Investments, except for money market funds, are stated at fair value on a recurring basis. Money market funds with maturities of one year or less are recorded at amortized cost.

The Agency classifies investments as current or noncurrent based on how readily the investment is expected to be converted to cash and whether any restrictions limit the Agency's ability to use the resources.

(f) Receivables

Receivables include amounts due from member agencies for development impact fees collected on behalf of the Agency, credit card receivables, interoperable receivables due from other California toll agencies, receivables from patrons for violations and tolls, and interest.

(g) Capital Assets

Capital assets include construction in progress, environmental mitigation sites, easements, the corridor operations facility, transponders, toll and violations collection equipment, buildings, changeable message signs, vehicles, and furniture. Capital assets are defined by the Agency as assets with an initial individual cost of more than five thousand dollars, with the exception of transponders that are valued in total, and an estimated useful life in excess of one year. The cost of capital assets includes ancillary charges necessary to place the assets into their intended location and condition for use.

As described further in note 5, the Foothill/Eastern Transportation Corridors and the related purchases of rights of way, for which title vests with the California Department of Transportation (Caltrans), are not included as capital assets because the Agency no longer has title to these assets. The costs of normal

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

maintenance and repairs and mitigation that do not add value to the assets or materially extend asset lives are not capitalized.

Capital assets are recorded at cost and are depreciated using the straight-line method over the following estimated useful lives:

Asset type	Useful life
Buildings	20–30 Years
Changeable message signs	15 Years
Toll revenue equipment	5 Years
Vehicles	5 Years
Leasehold improvements, other equipment, and furniture	5–10 Years

Assets determined to be impaired are recorded at the lower of cost or estimated net realizable value.

(h) Unearned Revenue

Unearned revenue represents prepaid tolls collected from patrons, including those using FasTrak®, an electronic toll collection system.

(i) Unamortized Deferral of Bond Refunding Costs

Deferred bond-refunding costs represent certain costs related to the issuance of bonds. These costs have been recorded as deferred outflows of resources, and are being amortized over the remaining period during which the refunded bonds were scheduled to be repaid, as more fully detailed in note 6.

(j) Pension Plan

Qualified permanent employees of the Agency participate in a cost-sharing, multiple-employer defined benefit pension plan administered by the Orange County Employees Retirement System (OCERS). For purposes of measuring the Agency's net pension liability, deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by OCERS. For this purpose, plan contributions are recognized when they are due and payable in accordance with plan terms. Investments are reported at fair value.

(k) Revenue Recognition

Toll revenue is recognized at the time each vehicle passes through the toll plaza. Development impact fees are earned when building permits are issued and funds are collected by the member agencies. Other revenue is recognized when earned.

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(l) Transactions with SJHTCA

Expenses directly related entirely to the Agency are charged to the Agency, and those incurred on behalf of both the Agency and SJHTCA are allocated between the two agencies based on the estimated benefit to each. In addition, the Agency has amounts due from SJHTCA related to SJHTCA customers who incur tolls on the Agency's corridors and other expenses and amounts due to SJHTCA related to the Agency's customers who incur tolls on State Route 73. At June 30, 2018 and 2017, the Agency had net payables to SJHTCA of \$6,075 and \$8,475, respectively.

(m) Net Position

The Agency's net position is classified within the following categories:

Net investment in capital assets: Represents the Agency's capital assets, net of accumulated depreciation, along with unamortized bond insurance and refunding costs, reduced by the outstanding principal balances of debt attributable to the acquisition, construction, and improvement of those assets.

Restricted: Represents the Agency's assets subject to externally imposed conditions, related primarily to restricted bond proceeds and certain revenue collected, net of related liabilities.

Unrestricted: Represents the remainder of the Agency's net position not included in the categories above.

(n) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(o) Reclassifications

Certain amounts reported in the prior period have been reclassified to conform to the current period presentation.

(a) Cash Deposits

Custodial Credit Risk Related to Cash Deposits

Custodial credit risk for deposits is the risk that, in the event of failure of a depository financial institution, the Agency will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party.

At June 30, 2018 and 2017, the carrying amounts of the Agency's cash deposits were \$15,275 and \$16,275, respectively, and the corresponding aggregate bank balances were \$18,732 and \$20,733, respectively. The differences of \$3,457 and \$4,458 were principally due to outstanding checks. The Agency's custodial credit risk is mitigated in that the full amounts of the bank balances outlined above were insured by federal depository insurance or collateralized in accordance with Section 53652 of the California Government Code with securities held by the pledging financial institution in the Agency's name.

(In thousands)

(b) Investments

(i) Credit Risk and Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. The Agency mitigates these risks by holding a diversified portfolio of high-quality investments. The Agency's investment policy sets specific parameters by type of investment for credit quality, maximum maturity, and maximum percentage investment. Both the policy and the Agency's debt agreements generally require that all securities must be issued by companies with a long-term debt rating of at least "A" by two of the Nationally Recognized Statistical Rating Organizations (NRSRO) or at least "AA" by one NRSRO. The policy also indicates specific rating requirements for certain types of investments. Further, there are percentage limitations on the purchase of specific types of securities, based on the purchase price of the security as compared to the market value of the total portfolio at the time of purchase. However, the policy does not require sales of individual securities due to subsequent changes in market value that cause their values to exceed the prescribed maximum percentages of the portfolio.

The table below identifies the types of investments that are authorized by the Agency's investment policy and certain provisions of the Agency's policy that address interest rate risk and concentration of credit risk. This table does not address investments of debt proceeds held by the bond trustee, which are governed by the provisions of the Agency's debt agreements rather than by the Agency's investment policy.

Authorized investment type	Maximum maturity	Maximum percentage of portfolio*	Maximum percentage investment in one issuer	Specific rating requirement
U.S. Treasury bills, notes, and bonds	5 Years	100	100	N/A
Federal agency and U.S. government-sponsored enterprise notes and bonds	5 Years	100	35	N/A
Federal agency mortgage- backed securities	5 Years	20	15	Second highest ratings category by an NRSRO
Supranational agency notes and bonds	5 Years	30	5	Second highest ratings category by an NRSRO

(In thousands)

The investment of debt proceeds and toll revenue held by the Agency's bond trustee is governed by provisions of the debt agreements, rather than by the general provisions of the California Government Code or the Agency's investment policy. The following table identifies the investment types that are authorized for these funds, and if applicable, the specific rating requirements:

<u>Investments authorized by debt agreements</u>	<u>Specific rating requirement</u>
U.S. government obligations	N/A
U.S. federal agency debt instruments	N/A
State and local government debt securities	One of the two highest rating categories by Moody's and S&P, and if rated by Fitch, in one of the two highest rating categories
Certificates of deposit, savings accounts, deposit accounts, or money market deposits insured by the FDIC	N/A
Certificates of deposit collateralized by U.S. government or federal agency obligations	N/A
Federal funds or bankers' acceptances	Prime-1 or A3 or better by Moody's, A-1 or A or better by S&P and, if rated by Fitch, F-1 or A or better
Commercial paper	Prime-1 or better by Moody's and A-1 or better by S&P and, if rated by Fitch, F-1 or better
Repurchase agreements with terms up to 30 days, secured by U.S. government or federal agency obligations	A or better by both Moody's and S&P and, if rated by Fitch, A or better
Medium-term corporate notes with maximum maturity of five years	One of the three highest applicable rating categories, or approved in writing, by S&P, and, if rated by Fitch, one of the three highest applicable rating categories

* Ratings are indicated to the extent available. However, in some instances, discounted federal agency bonds are not rated.

(ii) *Custodial Credit Risk*

Custodial credit risk for investments is the risk that the Agency will not be able to recover the value of investment securities that are in the possession of an outside party. All securities owned by the Agency are deposited in the Agency's trustee bank with the exception of a money market account that is deposited in the Agency's primary bank. Securities are not held in broker accounts.

(iii) *Interest Rate Risk*

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Agency mitigates this risk by matching maturity dates, to the extent possible, with the Agency's expected cash flow.

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

A summary of the Agency's investments held at June 30, 2018 that are governed by the Agency's investment policy and its bond agreements, including money market funds of \$27,822 and U.S. Treasury securities of \$20,623 that are considered cash equivalents, is as follows:

Investment type	Fair value	Remaining maturity (in years)			
		Less than one	One to two	Two to five	More than five
Federal agency, U.S. government-sponsored enterprise, and supranational notes and bonds	\$ 184,610	69,111	77,581	37,918	—
Corporate notes	183,244	58,313	55,480	69,451	—

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

At June 30, 2017, with the exception of investments issued or explicitly guaranteed by the U.S. government and money market mutual funds, there were no investments in any issuers that accounted for 5% or more of the Agency's total investments, other than investments with Federal Home Loan Bank, Federal National Mortgage Association, and Federal Home Loan Mortgage Corporation that represented 10%, 10%, and 8%, respectively, of the Agency's total investments, as permitted by the Agency's investment policy and the applicable bond indentures.

(iv) *Fair Value Measurements*

Because investing is not a core part of the Agency's mission, the Agency has determined that the disclosures related to these investments only need to be disaggregated by major type and has chosen a tabular format for disclosing the levels within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset, as follows:

- Level 1 inputs are quoted prices in active markets for identical assets.
- Level 2 inputs are significant other observable inputs.
- Level 3 inputs are significant, unobservable inputs.

Debt securities classified as Level 2 in the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Commercial paper is valued based on quoted prices in active markets of similar securities.

At June 30, 2018 and 2017, the Agency had the following fair value measurements:

Investment type	Fair value	June 30, 2018		
		Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Federal agency, U.S. government- sponsored enterprise, and supranational notes and bonds	\$ 184,610	—	184,610	—
Corporate notes	183,244	—	183,244	—

	<u>\$ 292,397</u>	<u>12,257</u>	<u>(218,654)</u>	<u>86,000</u>

Right-of-way acquisitions, grading, and improvements include easements and environmental mitigation parcels. Furniture and equipment include transponders, toll and violations collection equipment, buildings, vehicles, and leasehold improvements.

Transfers/Deletions

Ownership of the Foothill/Eastern Transportation Corridor construction, rights-of-way, grading, and improvements was transferred to Caltrans during the year ended June 30, 1999 upon satisfaction of all conditions contained within the cooperative agreements between the Agency and Caltrans. The Agency incurs additional costs for improvements and enhancements to the thoroughfares previously transferred to Caltrans. These improvements and enhancements are covered by separate project-specific cooperative agreements with Caltrans. The balance of construction in progress represents capital improvement projects, most of which will also be transferred to Caltrans upon completion and recognized as contribution expense.

During the year ended June 30, 2017, the Agency agreed to settle several legal matters related to its planned route for extension of State Route 241 to connect with I-5. As a condition of the settlement, the Agency agreed to abandon consideration of this route and to pay \$7.1 million to reimburse certain litigation costs incurred by the plaintiffs. Accordingly, the Agency recognized expenses of \$218,571 to write off previously incurred costs associated with planning for this route. Further, the Agency committed to spend \$28 million for land acquisitions and habitat restoration projects to benefit the San Mateo Creek and its watershed.

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

In February 2015, the Agency issued \$87,008 of Senior Lien Toll Road Refunding Revenue Bonds (2015 Capital Appreciation Bonds); together with certain funds held in trust, the proceeds of the issuance were used to refund certain outstanding revenue bonds. The bonds accrue interest at rates ranging from 4.21% to 4.42%, compounded semiannually, and are scheduled to mature in annual installments from January 2033 to January 2035.

In December 2013, the Agency issued \$2,274,617 of Series 2013 Toll Road Refunding Revenue Bonds (2013 Bonds); the proceeds of the issuance were used to refund certain outstanding revenue bonds. The reacquisition price of the refunded bonds exceeded their net carrying amount by \$14,534; this amount was considered a deferred loss for accounting purposes and is being amortized through 2040, the remaining period during which the refunded bonds were scheduled to be repaid. In addition, the Agency incurred bond insurance premiums of \$9,533, which is being amortized over the life of the 2013 bonds. The 2013 Bonds were issued at a discount of \$41,009, which is being amortized over the life of the bonds.

The 2013 current interest bonds include \$1,374,440 of Senior Term Bonds that mature in installments from January 2042 through January 2053; \$375,000 of Term Rate Bonds that mature in installments from January 2050 through January 2053; and \$198,050 of Junior Lien Bonds that mature in installments from January 2023 through January 2043. Interest on the 2013 current interest bonds is payable semiannually at rates ranging from 5.00% to 6.50%. The Senior Term Bonds and the Junior Lien Bonds are subject to early redemption on or after January 15, 2024, at the option of the Agency, by payment of principal and accrued interest. The Term Rate Bonds are subject to early redemption, at the option of the Agency, by payment of principal and accrued interest, on or after dates ranging from July 15, 2017 through July 15, 2022.

During August 2017, \$125,000 of the 2013 Term Rate Bonds were remarketed, resulting in a reduction in the applicable interest rate from 5.00% to 3.95%. In connection with the remarketing transaction, the Agency incurred expenses of \$882.

The 2013 capital appreciation bonds accrue interest at rates ranging from 3.750% to 7.125%, compounded semiannually, and are scheduled to mature in annual installments from January 2020 to January 2042. The bonds are subject to early redemption, at the option of the Agency, based on an independent make-whole calculation.

The 2013 convertible capital appreciation bonds accrue interest, compounded semiannually based on accreted amounts, at rates ranging from 5.30% to 6.85% through January 15, 2024. After this date, interest is payable semiannually based on accreted amounts. The bonds are scheduled to mature in annual installments from January 2025 to January 2042. The bonds are subject to early redemption on or after January 15, 2031, at the option of the Agency, by payment of the accreted amounts and accrued interest.

The master indentures of trust require the trustee to hold bond proceeds, pledged revenue, and any other amounts pledged for repayment of the bond debt described above. The balance of pledged funds held by the trustee are included in restricted cash and investments.

Included in principal at June 30, 2018 and 2017 is \$113,918 and \$84,944, respectively, related to accreted principal on convertible capital appreciation bonds and capital appreciation bonds.

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

A portion of the net proceeds of a prior bond refunding was used to purchase U.S. government securities, which were placed in an irrevocable escrow fund to be used for the debt service payments related to a previously refunded portion of the 1995 bonds. As of June 30, 2018 and 2017, the amounts of the previously refunded 1995 bonds outstanding, which were previously eliminated from the financial statements as a result of the refunding, are \$763,868 and \$785,650, respectively.

The following is a summary of the annual debt service requirements by fiscal year for the Agency's long-term debt obligations as of June 30, 2018:

	<u>Principal</u>	<u>Interest⁽¹⁾</u>	<u>Junior lien interest⁽¹⁾</u>	<u>Total</u>
2019	\$ —	98,694	12,764	111,458
2020	4,401	98,953	12,764	116,118
2021	7,739	99,540	12,764	120,043
2022	10,857	100,492	12,764	124,113
2023	14,286	101,606	12,754	128,646
2024–2028	56,120	663,967	62,487	782,574
2029–2033	180,829	685,563	56,076	922,468
2034–2038	238,533	804,929	40,125	1,083,587
2039–2043	386,432	740,079	14,864	1,141,375
2044–2048	674,940	349,611	—	1,024,551
2049–2053	901,405	125,692	—	1,027,097
	<u>\$ 2,475,542</u>	<u>3,869,126</u>	<u>237,362</u>	<u>6,582,030</u>

⁽¹⁾ Includes payments scheduled on January 1 and January 15 of the indicated fiscal year and July 1 and July 15 of the following fiscal year, to coincide with the annual debt service calculations used for covenant compliance purposes.

(7) Commitments and Contingencies

(a) Toll Collection and Revenue Management System Agreements

The Agency and SJHTCA have entered into agreements with contractors for various services, including toll collection systems operation and maintenance. The agreements expire on various dates through June 30, 2025 and are cancelable by the Agency, without further obligation, with advance written notice.

(b) Project Costs

As of June 30, 2018, the Agency has outstanding commitments and contracts related to construction activities of approximately \$44 million.

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(c) *Litigation*

The Agency is a defendant in various legal actions. Management believes that the ultimate resolution of these actions will not have a significant effect on the Agency's financial position or results of operations.

(d) *Risk Management*

The Agency maintains insurance coverage for various risks, including but not limited to property, liability, earthquake, and flood coverage. Coverage is purchased in accordance with the Agency's master indentures of trust, as applicable.

(e) *Mitigation Payment and Loan Agreement*

On November 10, 2005, the Agency's board of directors and the board of directors of SJHTCA entered into a Mitigation Payment and Loan Agreement (the Agreement). The terms of the Agreement called for the Agency to make payments totaling \$120,000 over four years to SJHTCA to mitigate for anticipated loss of revenue due to the construction of the State Route 241 to I-5 connection project. All scheduled payments totaling \$120,000 were made to SJHTCA as of June 2009 and were recorded as construction in progress.

In addition, the Agency committed to provide loans to SJHTCA on an as-needed basis up to \$1,040,000, subject to the terms of the Agreement, to assist SJHTCA in achieving its required debt service coverage ratio. Payments of accrued interest and outstanding principal would begin in the fiscal year when SJHTCA achieved a surplus in revenue in excess of the amount needed to meet the debt coverage requirement. All principal and accrued interest would be due and payable on January 1, 2037 to the extent that SJHTCA had surplus revenue available to pay all amounts due. The Agreement also stipulated that the Agency would not be obligated to make loans to SJHTCA prior to securing the necessary funds for constructing the State Route 241 to I-5 connection project unless the Agency determined that it would not build the project. If the commencement and diligent pursuit of the construction of the State Route 241 to I-5 connection project did not occur by June 30, 2015, the mitigation payments would be added to the principal amount of the loan. No amounts were loaned in connection with this arrangement.

On August 14, 2014, the Agency's board of directors and the board of directors of SJHTCA approved an agreement that provided for termination of the Agreement concurrently with the closing of a refinance transaction proposed by SJHTCA. The closing of this refinance transaction occurred on November 6, 2014. The termination agreement also provided for SJHTCA to pay \$120,000 to the Agency, in annual installments beginning January 15, 2025 equal to 50% of SJHTCA's surplus funds as defined in the agreement. Interest accrual based on the average annual yield of the State of California Pooled Money Investment Account commenced upon closing of the transaction and interest is payable annually beginning January 15, 2025.

As a result of this agreement, the aggregate payments of \$120,000 that were made to SJHTCA through 2009 were reclassified during 2015 as a note receivable from SJHTCA and a reduction of construction in progress.

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(8) Corridor Operations Facility Lease

In January 2000, the Agency, along with SJHTCA, relocated to the corridor operations facility. At that time, an operating lease agreement was executed between the Agency (lessor) and SJHTCA (lessee). The lease agreement expires at the earliest occurrence of 1) dissolution of the Agency, 2) sale of the facility, or 3) dissolution of SJHTCA. Lease payments are based on the estimated fair market rental value and are adjusted annually. The Agency received lease revenue for the years ended June 30, 2018 and 2017 of \$671 and \$605, respectively.

(9) Employees' Retirement Plans

Defined Benefit Plan – Qualified permanent employees of the Agency participate in a cost-sharing multiple-employer defined benefit pension plan (the Plan) administered by OCERS, a public employee retirement system established in 1945. The Plan is subject to the provisions of the County Employees Retirement Law of 1937 (California Government Code Section 31450 et. seq.); the California Public Employees' Pension Reform Act of 2013 (Government Code Section 7522 et. seq.); and other applicable statutes.

(a) Benefits

The Plan provides retirement, disability, and death benefits to eligible plan members and their beneficiaries. Monthly retirement benefits are determined by benefit formulas that depend upon the classification of employees, the date of entering membership in OCERS or a reciprocal plan, retirement age, years of service, and final average compensation. The Agency's members hired prior to January 1, 2013 are subject to a benefit formula of 2.0% of final average compensation per year of service, based upon retirement at age 55. Members hired on or after January 1, 2013 are subject to a benefit formula of 2.5% at 67.

Amounts payable for retired members are subject to annual cost-of-living adjustments based upon changes in the Consumer Price Index for the prior calendar year. Adjustments are limited to a maximum increase or decrease of 3% per year.

(b) Contributions

Employer and employee contribution requirements are determined as percentages of covered payroll amounts and vary based upon the age of each employee at the date of entering membership in OCERS or a reciprocal plan. Employer contribution rates are determined using the entry age normal actuarial cost method based upon a level percentage of payroll. Employer contribution rates ranged from 11.40% to 61.89% for the year ended December 31, 2017, and from 11.79% to 62.66% for the year ended December 31, 2016. Employee contributions are established by the OCERS Board of Retirement and guided by applicable state statutes. Employee contribution rates ranged from 8.75% to 16.35% for the year ended December 31, 2017, and from 8.73% to 16.50% for the year ended December 31, 2016. The contributions from the Agency recognized by the Plan, measured as the total amounts of additions to the Plan's fiduciary net position for the years ended December 31, 2017 and 2016, were \$1,024 and \$1,038, respectively, and equaled 100% of the required contributions, and represented 24.4% and 26.6% of the Agency's covered payroll, respectively.

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(c) Pension Liabilities, Pension Expense, and Deferred Outflows/Inflows of Resources

For purposes of reporting under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, OCERS arranged for determination of the Plan's collective net pension liability; deferred outflows and inflows of resources related to pensions; and pension expense, as well as the proportionate share of each amount applicable to the Plan's participating employers, using measurement dates of December 31, 2017 and 2016, with respective actuarial valuations as of December 31, 2016 and 2015 and standard procedures to roll forward to the respective measurement dates that correspond with the Agency's reporting dates of June 30, 2018 and 2017. The proportionate shares of these amounts attributable to the Transportation Corridor Agencies have been determined by OCERS's actuary based upon actual employer contributions within each rate group and further allocated between the Agency and SJHTCA on the basis of their respective shares of covered payroll to determine the amounts reportable by the Agency, as indicated below.

	June 30	
	2018	2017
Collective net pension liability – OCERS	\$ 4,952,099	5,191,217
Proportionate share attributable to Transportation Corridor Agencies	10,243	12,423
Share allocable to Foothill/Eastern Transportation Corridor Agency	7,417	8,742
Agency's proportion (percentage) of the collective net pension liability	0.15%	0.17%
Collective deferred outflows of resources – OCERS	\$ 795,890	570,539
Proportionate share attributable to Transportation Corridor Agencies	1,622	1,133
Share allocable to Foothill/Eastern Transportation Corridor Agency	1,114	817
Collective deferred inflows of resources – OCERS	\$ 1,178,768	756,043
Proportionate share attributable to Transportation Corridor Agencies	3,249	886
Share allocable to Foothill/Eastern Transportation Corridor Agency	2,091	655
Collective pension expense – OCERS	\$ 529,375	600,371
Proportionate share attributable to Transportation Corridor Agencies	1,331	2,032
Share allocable to Foothill/Eastern Transportation Corridor Agency	827	1,235

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

The Agency's deferred outflows of resources related to pensions as of June 30, 2018 and 2017 are attributable to the following:

	2018	2017
Net difference between projected and actual earnings on pension plan investments	\$ —	674
Changes of assumptions	1,006	—
Differences between expected and actual experience	108	143
Contributions to the plan subsequent to the measurement date of the collective net pension liability	603	649
Total deferred outflows related to pensions	\$ 1,717	1,466

The Agency's deferred inflows of resources related to pensions as of June 30, 2018 and 2017 are attributable to the following:

	2018	2017
Differences between expected and actual experience	\$ 1,025	288
Net difference between projected and actual earnings on pension plan investments	848	—
Changes of assumptions or other inputs	218	367
Total deferred inflows related to pensions	\$ 2,091	655

The amount of \$603, representing as of June 30, 2018 the Agency's balance of deferred outflows of resources related to contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2019. The other amounts of the Agency's balances of deferred outflows and deferred inflows of resources as of June 30, 2018 will be recognized as net reductions of pension expense as follows:

Year ending June 30:	
2019	\$ (178)
2020	(246)
2021	(325)
2022	(246)
2023	18
	\$ (977)

CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

(d) Actuarial Assumptions and Other Inputs

The following significant methods and assumptions were used to measure the Plan's total pension liability as of December 31, 2017 and 2016:

- Actuarial experience study – Three-year periods ended December 31, 2016 and 2013, respectively
- Inflation rate – 2.75% and 3.00%, respectively
- Projected salary increases – 4.25% to 17.50%, depending upon service and nature of employment
- Cost-of-living adjustments – 2.75% and 3.00%, respectively

The mortality assumptions were based, respectively, on the results of the actuarial experience studies for the period January 1, 2014 through December 31, 2016 using the Headcount-Weighted RP-2014 Healthy Annuitant Mortality Table projected generationally using the two-dimensional Scale MP-2016 and for the period January 1, 2011 through December 31, 2013 using the RP-2000 Combined Healthy Mortality Table projected with the Society of Actuaries Scale BB to 2020. The mortality assumptions were then customized to account for the Plan's membership experience.

The discount rates used to measure the Plan's total pension liability were 7.00% and 7.25% at December 31, 2017 and 2016, respectively. The projection of cash flows used to determine the discount rates assumed that plan member contributions will be made at the current contribution rates and that employer contributions will be made at actuarially determined rates. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return should be determined without reduction for plan administrative expense. The investment return assumptions are net of administrative expenses, assumed to be 14 and 16 basis points, respectively. The investment rate of return assumptions remained the same for reporting purposes due to the immaterial impact administrative expenses has on the overall assumed rate of return. The long-term expected rates of return on plan investments were determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentages and by adding expected inflation and deducting expected investment expenses.

**FOOTHILL/EASTERN TRANSPORTATION
CORRIDOR AGENCY**

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

The target allocation and projected arithmetic real rate of return for each major asset class, after deducting inflation but before deducting investment expenses, used in the derivation of the long-term expected rate of return assumptions for each measurement date are summarized in the following table:

	December 31, 2017		December 31, 2016	
	Target allocation	Long-term expected real rate of return	Target allocation	Long-term expected real rate of return

Notes to Financial Statements

June 30, 2018 and 2017

(In thousands)

The following table presents the Agency's proportionate share of the Plan's net pension liability, calculated using the discount rates used in each year's actuarial valuation (7.0% for 2018 and 7.25% for 2017), as well as what its proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower (6.0% and 6.25%, respectively) or one percentage point higher (8.0% and 8.25%, respectively) than the assumed discount rate:

	June 30	
	2018	2017
Net pension liability, as calculated:		
With assumed discount rate	\$ 7,417	8,742
With a 1% decrease	12,121	12,745
With a 1% increase	3,596	5,448

(e) Plan's Fiduciary Net Position

OCERS provides publicly available financial information, including comprehensive annual financial reports and actuarial valuations at www.ocers.org. Detailed information about the Plan's fiduciary net position is included in the comprehensive annual financial report for the fiscal year ended December 31, 2017, which may also be obtained by calling (714) 558-6200.

Defined Contribution Plan – The Agency also sponsors a defined contribution plan under the provisions of Internal Revenue Code Section 457 that permits employees to defer portions of their pretax compensation. The Agency provides matching contributions to a related Section 401(a) plan, at a rate of 50% of the employees' deferral contributions, up to a maximum of 2% of each employee's related compensation. In connection with this plan, the Agency incurred \$76 and \$72 of expense for the years ended June 30, 2018 and 2017, respectively.

Note – GASB Statement No. 68 requires a 10-year schedule presenting the items above. The applicable information has been presented for the periods since the statement was adopted, and will be supplemented as the same information becomes available for future periods.

See accompanying independent auditors' report.

ADOPTED JUNE 14, 2018

Transportation Corridor Agencies™

**Fiscal Year 2019
CAPITAL IMPROVEMENT PLAN**

Background

The Transportation Corridor Agencies' (TCA) 51 miles of toll roads have been operational over 24 years since the initial segment of the State Route (SR) 241 Toll Road between Portola Parkway (North) and Portola Parkway (South) in 1993.

Once highway segments become operational, various roadway expansions and operational improvement projects are required to keep pace with increasing traffic demands and changing conditions, land uses and demographics. These improvements make up the Capital Improvement Plan or CIP.

The CIP was first developed in the late 1990's. The CIP is updated annually, and the current planned implementation schedule and the costs are shown in Table 1. All estimated costs in this report are in 2019 dollars. Completed CIP projects are illustrated on page 13 and described in the subsequent pages.

Foothill/Eastern TCA Capital Projects

South County Traffic Relief Effort

F/ETCA Project No. 1

Description: This effort includes identifying options that address the region's future needs for mobility and accessibility, and providing improvements that meet those needs.

Project Status: The Project Initiation Document phase is currently underway and is expected to be completed in Fiscal Year (FY) 2018. FY 2019 efforts include beginning the formal environmental document phase.

Anticipated Completion: TBD

Total Project Cost: TBD

Purpose and Need: The purpose and fundamental objectives of the project are to materially improve north-south regional mobility in South Orange County and accommodate regional travel demand in a manner that promotes the supporting objectives related to mobility in South Orange County:

- Improve regional mobility by reducing congestion on I-5 during peak commuting hours and weekends
- Provide additional north-south capacity in case of traffic incidents on I-5
- Provide additional north-south capacity in case of emergencies
- Enhance multi-modal mobility opportunities

Transportation infrastructure improvements are necessary to materially address the existing and future deficiencies for north-south regional mobility in South Orange County. Roadway deficiencies and mobility limitations in South Orange County are described below:

- Demand approaches or exceeds capacity on I-5 during peak commuting hours and weekends
- The lack of redundant north-south capacity increases congestion during traffic incidents on I-5
- The lack of sufficient north-south capacity impairs evacuation and emergency response

Planning/Engineering: Upon the conclusion of the Caltrans' PID phase, the Agency, in coordination with Caltrans, will begin the formal environmental study phase beginning with the preparation of an environmental impact report and environmental impact statement (EIR/EIS). Inclusive of the EIR/EIS, activities involve the preparation of technical studies that evaluate the project's effects on air quality, biology, cultural resources, water quality and several other topical areas. Preparation of the technical studies will be the primary focus for Environmental Planning in FY 2019. Limited design work to support the outreach, engineering and environmental planning efforts is expected to continue through FY 2019.

Right of Way: TBD

Construction: Construction will begin after a route is selected and the environmental process is completed. The anticipated date for completion is still to be determined.

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
South County Traffic Relief Effort	\$11,642	\$13,628	\$19,992	TBD	TBD

Oso Parkway Bridge

F/ETCA Project No. 2

Description: The Oso Bridge Project consists of an overcrossing bridge structure at Oso Parkway and construction of a mainline roadway gap closure between the southern terminus of the State Route (SR) 241 Toll Road and the northern terminus of the Los Patrones Parkway scheduled to open in June 2018. The Oso Bridge Project will allow users of Los Patrones Parkway to directly access the 241 Toll Road via the proposed gap closure, which will pass under the new Oso Parkway Bridge. This direct access to the 241 Toll Road will enhance traffic operations and safety for the interchange and improve access to the 241 Toll Road.

Project Status: The project design work is completed and the advertise and award phase are presently ongoing by the County of Orange.

Anticipated Completion: Summer 2020

Total Project Cost: \$38 Million

Purpose and Need: The purpose of the proposed project is to:

- Reduce forecast deficiencies and congestion on the arterial network in south Orange County;
- Reduce vehicle miles traveled (VMT) and vehicle hours traveled (VHT) within south Orange County;
- Provide more efficient connection between Los Patrones Parkway and SR 241;
- Eliminate thru-intersection movements at the Oso Parkway ramps;
- Support communities in south Orange County by providing transportation infrastructure as identified in regional, county and local plans.

The proposed project is needed to eliminate thru-intersection movements on the Oso Parkway ramps to and from Los Patrones Parkway to and from SR 241; and to reduce forecasted congestion on arterials in south Orange County. The proposed project is also needed to accommodate build out of County of Orange master plan of arterial highways (MPAH).

Planning/Engineering: An addendum to the Final Environmental Impact Report (FEIR) 584 and 589, as certified by the County of Orange, was completed in 2016 pursuant to CEQA Guidelines Section 15164 for the proposed Oso Bridge Project.

Right of Way: N/A

Construction: It is estimated that construction will commence in summer 2018 and will be completed over a 24-month construction period.

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
Oso Parkway Bridge	\$5,365	\$10,670	\$23,590	\$0	\$39,625

241/91 Express Connector

F/ETCA Project No. 3

Description: The project consists of constructing a single lane tolled connector between the median of the SR 91 Express Lanes and the median of SR 241.

Project Status: Staff is proceeding with the required preliminary engineering and environmental studies necessary to advance the project through the environmental phase.

Anticipated Completion: 2023

Total Project Cost: \$183 Million

Purpose and Need: The purpose of the Proposed Project is to implement the build-out of the Eastern Transportation Corridor (ETC) as approved in 1994, and attain compatibility with the proposed SR 91 CIP, while minimizing environmental impacts. In addition to the originally intended objectives of the ETC, changed circumstances at the SR 241/SR 91 interchange have led to the following objectives for the Proposed Project:

- Implement the build out of the ETC, as approved in 1994;
- Attain compatibility with the SR 91 mainline and SR 91 Express Lanes;
- Improve traffic flow and operations by reducing weaving across multiple GP lanes between the SR 91 Express Lanes and the SR 241 GP lane connectors
- Enhance the efficiency of the tolled system, thereby reducing congestion on the non-tolled system on SR 91.

There is a need for improved access between SR 241 and SR 91. Roadway deficiencies are described below:

- Demand exceeds capacity on the NB SR 241 connector to EB SR 91 and on the WB SR 91 connector to SB SR 241
- Northbound vehicles on SR 241 cannot [directly] access the eastbound SR 91 Express Lanes
- WB SR 91 Express Lanes motorists cannot access SB SR 241
- The weaving between the GP connectors and the median lanes is an issue because it degrades the level of service [on the 91 GP lanes] due to increased vehicle density. In addition, the weaving operations contribute to sideswipe accidents.

Planning/Engineering: A median connector between SR 241 and SR 91 was included as a project component in the ETC (SR 133, 241, 261) environmental document, EIS No. 2-1. A draft Supplemental EIR/EIS was released for a 60-day public comment period, which concluded on January 9, 2017. Staff is currently evaluating the comments received during the public review period and is preparing responses to comments.

The project will be delivered under the conventional design-bid-build process. Final design will be completed after the environmental document is certified.

Right of Way: Minor right of way needed for project. Further refinement of the right of way requirements will be completed during final design.

Construction: A 26-month construction duration is anticipated.

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
241/91 Express Connector	\$8,653	\$5,144	\$4,381	\$164,980	\$183,158

Description: Study options for an access point to the Frank R. Bowerman Landfill from the SR 241 or SR 133, in the City of Irvine.

Project Status: Preparation of a Project Study Report-Project Development Study is currently underway.

Anticipated Completion: 2019 (Study only)

Total Project Cost: TBD

Purpose and Need: The intent of this project is to study options for providing access to and from the Frank R. Bowerman Landfill from SR 241 in order to reduce truck traffic congestion on Sand Canyon Avenue in the City of Irvine which currently serves as the designated truck route to the landfill.

Planning/Engineering: The Foothill/Eastern Transportation Corridor Agency (F/ETCA), acting as the implementing agency, has begun the preparation of a Project Study Report-Project Development Study (PSR-PDS) to study the potential for an access point to the Frank R. Bowerman Landfill from the SR 241 or SR 133, in the City of Irvine to the Frank R. Bowerman Landfill from the SR 241 or SR 133, in the City of Irvine. One option is an interchange at Jeffrey Road and the SR 241. The extension of Jeffrey Road north of Portola Parkway to the SR 241 is included in the County of Orange Master Plan of Arterial Highways (MPAH).

Right of Way: TBD

Construction: TBD

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
Jeffrey Road Interchange Study	N/A	\$325	\$653	TBD	TBD

133/Great Park Interchange Study

F/ETCA Project No. 5

Description: Analyze the potential impacts to traffic and revenue on The Toll Road with the addition of a proposed interchange along SR 133 at Great Park Boulevard (Trabuco Road).

Project Status: Traffic and revenue analysis is underway.

Anticipated Completion: TBD (Study only)

Total Project Cost: TBD

Purpose and Need: Five Points Communities, in partnership with the City of Irvine, is studying the potential for a new interchange on the 133 Toll Road at Great Park Boulevard (Trabuco Road). The intent of this new access is to alleviate traffic demand at the nearby Sand Canyon Avenue/Interstate 5 interchange.

Planning/Engineering: Preparation of a Project Study Report-Project Development Study is underway by the City of Irvine. The F/ETCA as a stakeholder will work with Five Points Communities and the City of Irvine as the project development process continues. A traffic and revenue study is being conducted by F/ETCA to determine the effects the proposed interchange would have on The Toll Road system and the options for tolling interchange movements.

Right of Way: N/A

Construction: N/A

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
133/Great Park Interchange Study	\$6	\$100	\$130	TBD	TBD

Description: This project provides enhancements to sign messaging throughout The Toll Roads system and along the approaches from the connecting roadways.

Project Status: The project is currently in the design phase and construction is expected to commence in late-2018 and be complete in FY19.

Anticipated Completion: 2019

Total Project Cost: \$3.2 Million

Purpose and Need: The project proposes to update signage throughout The Toll Roads system and along the approaches from the connecting roadways in order to provide consistent messaging that advises drivers they are entering a tolled facility, explain how tolls can be paid, and incorporate current California Manual of Traffic Control Devices (CA MUTCD) recommendations for toll road signage.

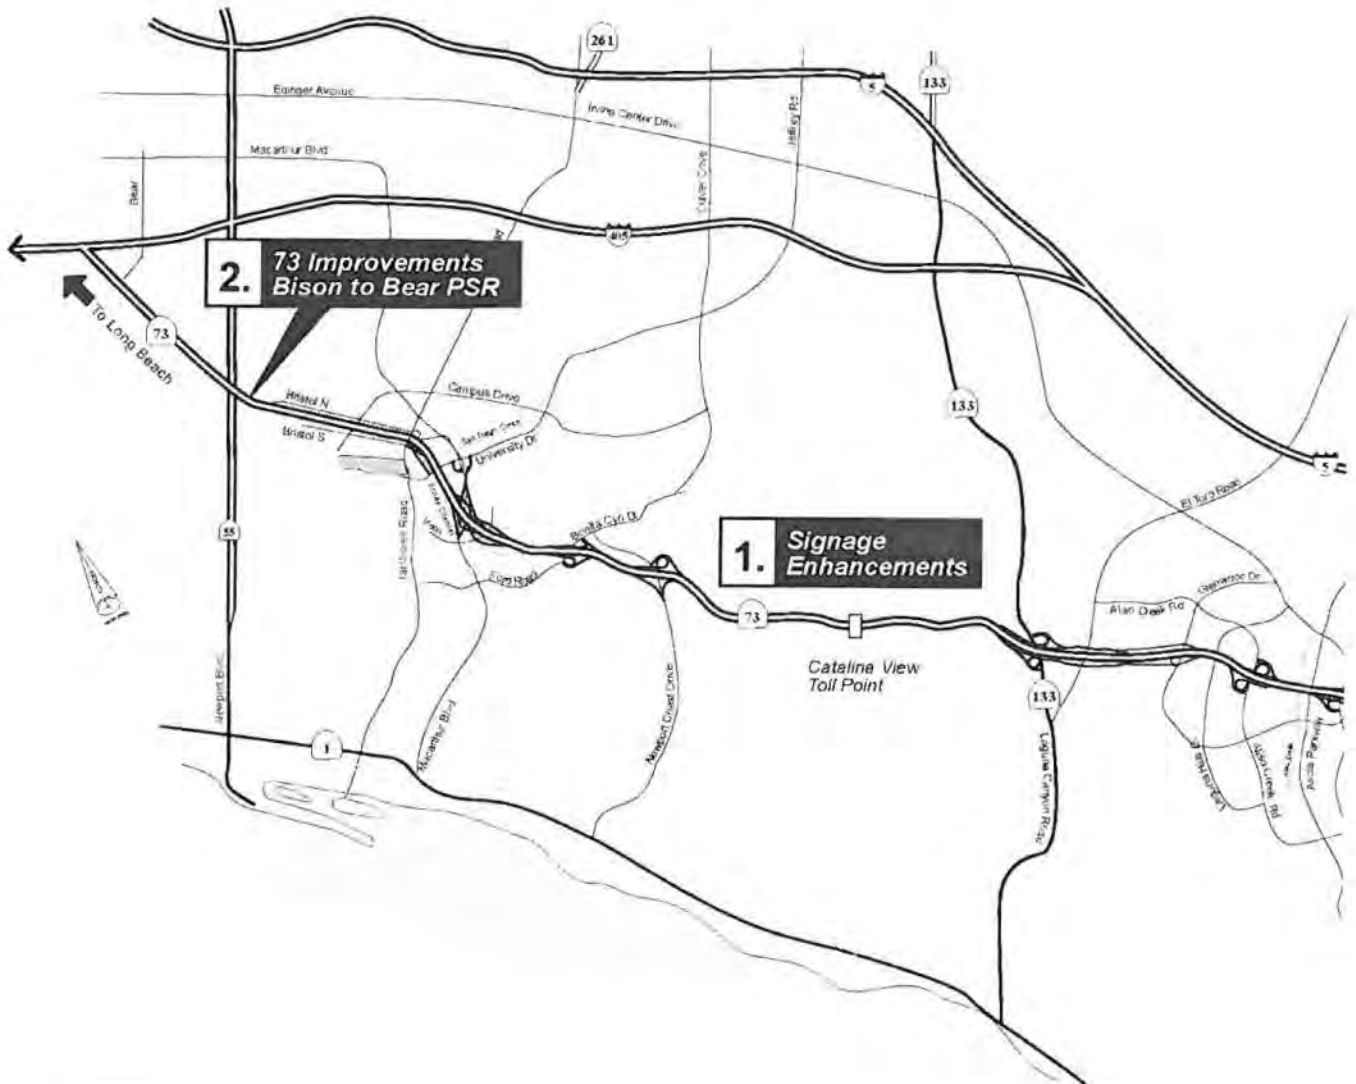

Planning/Engineering: In December 2014, the Boards approved a contract to augment and enhance signage throughout The Toll Roads system and along approaches to The Toll Roads from the connecting roadways. Customer research was performed in mid-2015 and the results incorporated into the signage modifications being made to follow the California and Federal toll road signage recommendations as prescribed by the current CA MUTCD. Final design is anticipated to be completed in mid-2018.

Right of Way: N/A

Construction: Installation will require lane and ramp closures throughout The Toll Roads and adjacent freeway system. Closures will take place at night and other off-peak travel times in order to minimize inconvenience to drivers. Construction is anticipated to begin in late-2018 and be complete in mid-2019.

Total Estimated Project Cost (In \$1,000)					
Project	FY17 & Prior	FY18 Actual Plus Projected	FY19 Proposed Budget	FY20 & Later	Total
Signage Enhancements	\$311	\$246	\$2,680	N/A	\$3,237

San Joaquin Hills TCA Capital Projects

Signage Enhancements – San Joaquin Hills

SJHTCA Project No. 1

Description: This project provides enhancements to sign messaging throughout the Toll Roads System and along the approaches from the connecting highways.

Project Status: The project is currently in the design phase and construction is expected to commence in late-2018 and be complete in FY19.

Anticipated Completion: 2019

Total Project Cost: \$3.2 Million

Purpose and Need: The project proposes to update signage throughout The Toll Roads system and along the approaches from the connecting roadways in order to provide consistent messaging that advises drivers they are entering a tolled facility, explain how tolls can be paid, and incorporate current California Manual of Traffic Control Devices (CA MUTCD) recommendations for toll road signage.

Planning/Engineering: In December 2014, the Boards approved a contract to augment and enhance signage throughout The Toll Roads system and along approaches to The Toll Roads from the connecting roadways. Completed Capital Projects (\$M)

Foothill/Eastern Transportation Corridor Agency Completed Projects

1. 241 Banderas Bridge Overcrossing. - This project provided a new overcrossing of the 241 Toll Road between Antonio Parkway and Santa Margarita Parkway. It was sponsored by the City of Rancho Santa Margarita to provide improved traffic circulation within the City. The F/ETCA contributed \$1.22 million as its fair share of the project costs. The project was completed and opened to traffic in October 2002.

2. Santa Margarita Parkway On-Ramp Widening - The northbound on-ramp at this location previously narrowed to a single lane prior to merging into the mainline. This project added a second lane to the ramp to address high peak-hour traffic volumes, which also required widening the 1,500 foot long Arroyo Trabuco Creek Bridge. The bridge was widened to the Ultimate Corridor configuration at a total project cost of \$11.57 million. This project was completed in 2005.

3. Arroyo Trabuco Southbound Bridge Widening. - During construction of the Santa Margarita Parkway On-Ramp Widening project, the contractor was asked to price a similar widening of the southbound traffic structure thereby allowing both northbound and southbound structures to be widened to their Ultimate Corridor width at the same time. This would allow only one disruption of the Arroyo Trabuco Creek below the bridge. The project was designed and constructed including the addition of a second exit lane to Santa Margarita Parkway at a total project cost of \$8.52 million. This project was completed in early 2005.

4. 241 northbound widening – One additional mixed flow lane was constructed in the median of the 241 northbound from Arroyo Trabuco Creek to Bake Parkway. This project included the widening of five twin northbound and southbound bridges to their Ultimate Corridor configuration. Construction was completed in late 2003 at a total project cost of \$15.28 million.

5. 241 Tomato Springs Toll Plaza Third FasTrak Lanes – These lanes were added to address increasing traffic volumes and FasTrak usage at this SR 241 location. Included was a reconfiguration of the lane delineation between the toll plaza and the adjacent SR 133 Interchange to encourage FasTrak as the predominant toll payment method. Construction was completed in the spring of 2004 at a total project cost of \$3.11 million.

6. Landscaping Enhancements – Two separate contracts were designed and constructed/installed on the 241 and 261 Corridors. These were completed at project costs totaling \$5 million. Grant funds of \$750,000 reduced the Agency's net cost by that amount. Implementation was completed in 2004.

7. Toll Plaza Water & Wastewater – Improvements to the toll plaza water and wastewater systems were completed at three mainline toll plazas on the 241, 261 and 133 Toll Roads, including one new connection to a public sewer. These were completed in early 2002 at a cost of \$223,000.

8. 133 Widening – One mixed flow lane was added in each direction from I-5 to 241 along with median guard rail for most of the 2.5 mile project length. Construction was completed in the fall of 2005 at a project cost of \$5.39 million.

9. Windy Ridge FasTrak Lane Widening - The project added a third general purpose FasTrak lane in each direction within the 241 roadway median through the Windy Ridge Mainline Toll Plaza from south of the Southern California Edison (SCE) wildlife undercrossing to north of the Windy Ridge wildlife undercrossing, a distance of 3.0 miles. Widening the southbound SCE bridge and the northbound Windy Ridge Wildlife bridge was also included in the project. The project was opened to traffic in October 2009.

10. All-Electronic Tolling – In May 2014, the Agencies ceased collecting cash on the system. This was a multi-year process that involved each of the departments within the TCA. All-Electronic Tolling provides for license plate tolling for those that do not have a FasTrak account. The work was done in conjunction with a pressing need to replace outdated tolling equipment throughout the system.

11. Wildlife Safety Fence Phases 1, 2A, and 2B – In FY 2016, Phases 1, 2A, and 2B were constructed. This 6.4 mile stretch along SR 241 from the Chapman/Santiago Canyon Road interchange to SR-91 has been completed and is expected to reduce the number of wildlife-vehicle collisions on the SR 241.

12. Toll Booth Removal Phase 1 – After completion of the conversion to All-Electronic Tolling, the remaining toll booths on the system were evaluated for removal. Construction of Phase 1 completed in FY2018 and included the removal of the toll booths and related equipment on multi-lane ramps where traffic passed on both sides of the existing toll booths. Schedule for future phases has not yet been identified.

San Joaquin Hills Transportation Corridor Agency Completed Projects

1. 73 @ Glenwood Interchange Phase I – This project included the design and construction of ramps to and from the north at Glenwood/Pacific Park Drive on the 73 Toll Road. Work was performed under a design-build contract with construction completed in April 2003 at a total project cost of \$8.50 million. Just under \$6.7 million was received by the San Joaquin Hills Agency in grant funding for the project.

2. Landscaping Enhancements – A contract was completed to enhance the landscaping at interchanges along the SR 73, at a cost of \$2.30 million.

3. 73 Northbound Roadway Widening – This project added a fourth lane to the northbound mainline in two locations: 1) from the former lane drop north of Aliso Viejo Parkway to north of the Laguna Canyon Road entrance ramp, a distance of 2.4 miles, and 2) from the Catalina View Mainline Toll Plaza cash lane merge, to the MacArthur Blvd. exit, a distance of 3.3 miles. The project was opened to traffic in December 2009.

4. All-Electronic Tolling – In May 2014, the Agencies ceased collecting cash on the system. This was a multi-year process that involved each of the departments within the TCA. All-Electronic Tolling provides for license plate tolling for those that do not have a FasTrak account. The work was done in conjunction with a pressing need to replace outdated tolling equipment throughout the system.

5. Toll Booth Removal Phase 1 – After completion of the conversion to All-Electronic Tolling, the remaining toll booths on the system were evaluated for removal. Construction of Phase 1 completed in FY2018 and included the removal of the toll booths and related equipment on multi-lane ramps where traffic passed on both sides of the existing toll booths. Schedule for future phases has not yet been identified.
